**Research on ACP and EOLC, Workshop I: Meet the Expert. Participants discuss their before submitted ACP research projects (for application or ongoing) in small groups**

*Sara Davison (CAN)*

*Luc Deliens (BEL)*

*Susan Hickman (USA)*

*Bill Silvester (AUS)*

Participants, please send your research abstracts (max. 1 page) until August 31st to the four chairs:

Sara Davison ([sara.davison@ualberta.ca](mailto:sara.davison@ualberta.ca)), Luc Deliens ([luc.deliens@vub.ac.be](mailto:luc.deliens@vub.ac.be)), Hickman, Susan E ([hickman@iu.edu](mailto:hickman@iu.edu)), and Bill Silvester ([William.SILVESTER@austin.org.au](mailto:William.SILVESTER@austin.org.au)).

A precise and relevant research question, and the appropriate methodology to answer it, is the foundation of successful research. This workshop is a master class in advance care planning research. It gives the rare opportunity to meet with senior experts and researchers from other international groups and exchange ideas and experiences with them. After an introduction on approaches to research on ACP, participants will present their (before submitted) research proposals. This will be followed by in-depth discussions on the relevant concepts as identified by workshop attendees and experts with a view to working towards concrete solutions that will lead to successful grant applications and quality research.

Participants, please send your research abstracts (max. 1 page) until August 31st to the four chairs:
